

HITACHI
Air conditioning solutions

Johnson Controls-Hitachi Air Conditioning India Ltd. (JCH-IN)

Company Profile

02

About JCH-IN

Hitachi as a brand has always believed
in being **resilient** to the challenges

We believe in “**Kaizen**” which means continuous
improvement and we strive to deliver the **expertise**
that we have gained over all these years

JCH-IN Introduction

| | |
|-------------------|--|
| Company Name | Johnson Controls-Hitachi Air Conditioning India Limited (Abbr. JCH India) |
| Registered Office | 9 th Floor, Abhijeet, Ahmedabad |
| Factory | Karan Nagar, Kadi, Gujarat |
| Holding Company | JCH Group: 74.25% Public: 25.75% (Listed company) (% as on 1 Apr 16) |
| Capital | Rs.271.9 Million (1 st April 2022) |
| Established | 7th Dec 1984, (1st October 2015) |
| Employees | 2366 (Lean Season) 4438 (Peak Season) |
| Business | Design, Develop, Manufacture, Sell , Service of Residential and Commercial Air Conditioners. Import & Sell Refrigerator. |

Our Journey

HITACHI

1984
Acquest Air Conditioning Systems Pvt. Ltd.

Owned by Lalbhai Group, Ahmedabad

1990

Technical Collaboration
With Hitachi, Japan

HITACHI

1999

Amtrex Hitachi Appliances Ltd.

JV Between Hitachi And Lalbhai Group

2003

Hitachi Home And Life Solutions (India) Ltd.

Subsidiary Of Hitachi Appliances Ltd.

2009

Single Roof Manufacturing Unit

(34,000 Sq.m)

Built. at Kadi, Gujarat.

HITACHI
Air conditioning solutions

2015

Johnson Controls – Hitachi Air Conditioning India Ltd.

Joint Venture Between Hitachi Appliances, Inc. & Johnson Controls Inc.

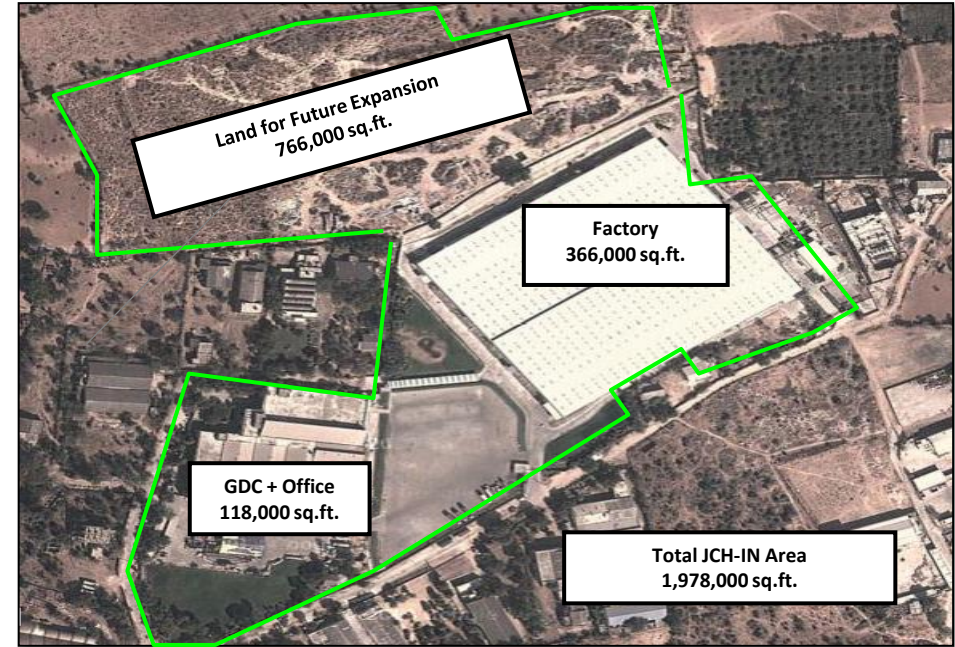

2019

Global Development Centre

Plays an active role in innovation and improving time-to-market for global and local products

VRF Top Flow Outdoor Unit : SET FREE SIGMA

Single module : 8 to 24HP

3 Cabinets, 9 models for selection

Base Module up to 24 HP

Combination Module :

2 ~ 4 modules combination, 36 models for selection

| Capacity Range (HP) | No. of Modules |
|---------------------|----------------|
| 8 ~ 24 | Single |
| 26 ~ 48 | Two |
| 50 ~ 72 | Three |
| 74 ~ 96 | Four |

Combination Module up to 96 HP

VRF Side Flow Outdoor Unit : SideSmart™

“The World’s First Slim Modular Side Flow VRF unit”

SideSmart™

Slim Modular VRF

**Biggest base model
Up to 18 HP**

Modular design Up to 72HP
(Standard/Economy Combination)

VRF Side Flow Outdoor Unit : SideSmart™

SideSmart™ is an exclusive solution, offering until now an unseen combination of benefits: performance equaling large top-flow units, with slim modular units which can fit anywhere.

CONCEPT Modularity with great performance

Benefit from the best level of Hitachi VRF efficiency.

DESIGN Connectable slim side flow modules

For the first time, side flow slim units can be connected to combine their capacity.

CONFIGURATION Can be placed anywhere in your building

Can be installed at different floors, with flexible capacities & options for indoor locations.

SPACE LAYOUT Save building space

Reserve your rooftop for other purpose & optimize the indoor layout.

INVESTMENT Save cost at every stage

Less piping runs, simplified installation process & superior energy efficiency.

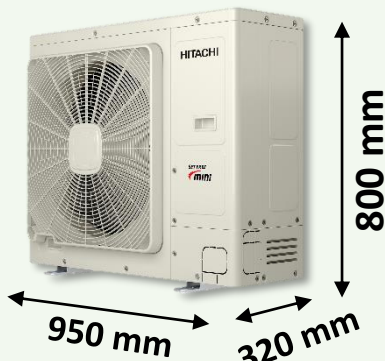

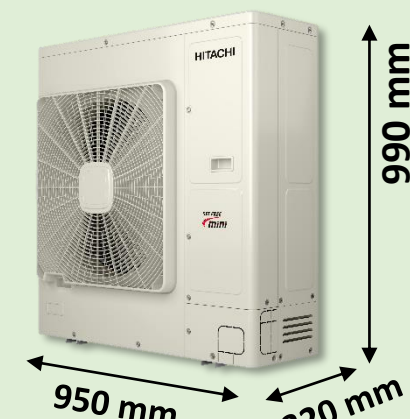

SideSmart™

Slim Modular VRF

VRF Indoor Units

Wide range - 13 types of IDU, 72 models

Highest air quantity with extra speed

Suitable for all types of interiors

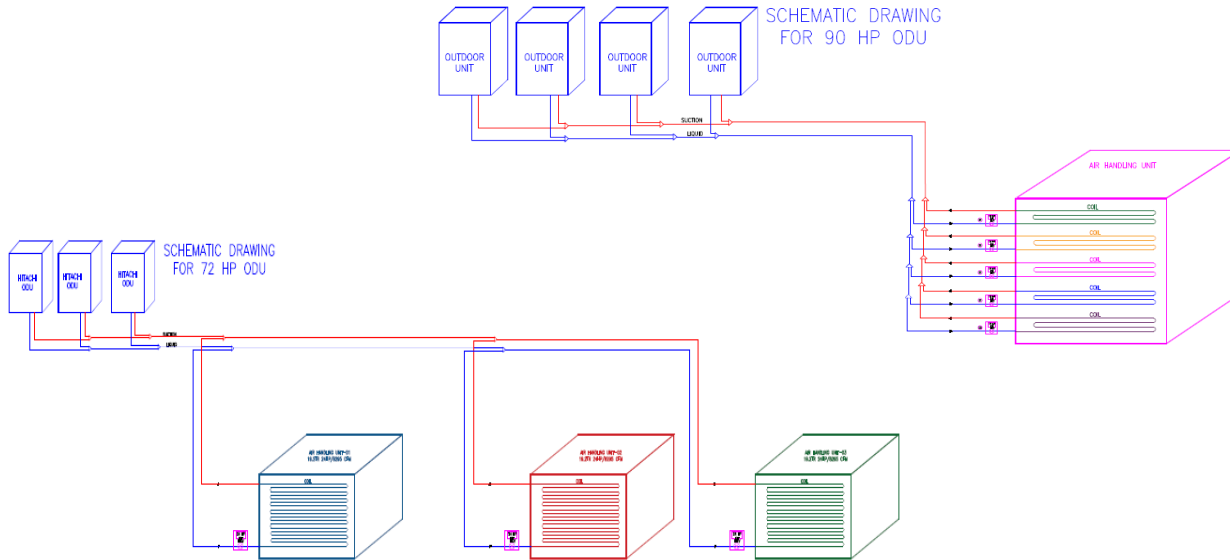

Whisper Quiet Indoor Units

Hi wall with best in class “iClean+” & “Motion Sensor” features

VRF System with AHU

Integrate Hitachi VRF with your AHU's.

- With ease in installation, maintenance & energy efficient operation with VRF system, more enquiries for VRF & AHU combinations are coming in industry.
- Mentioned below are the options for VRF ~ AHU combination :

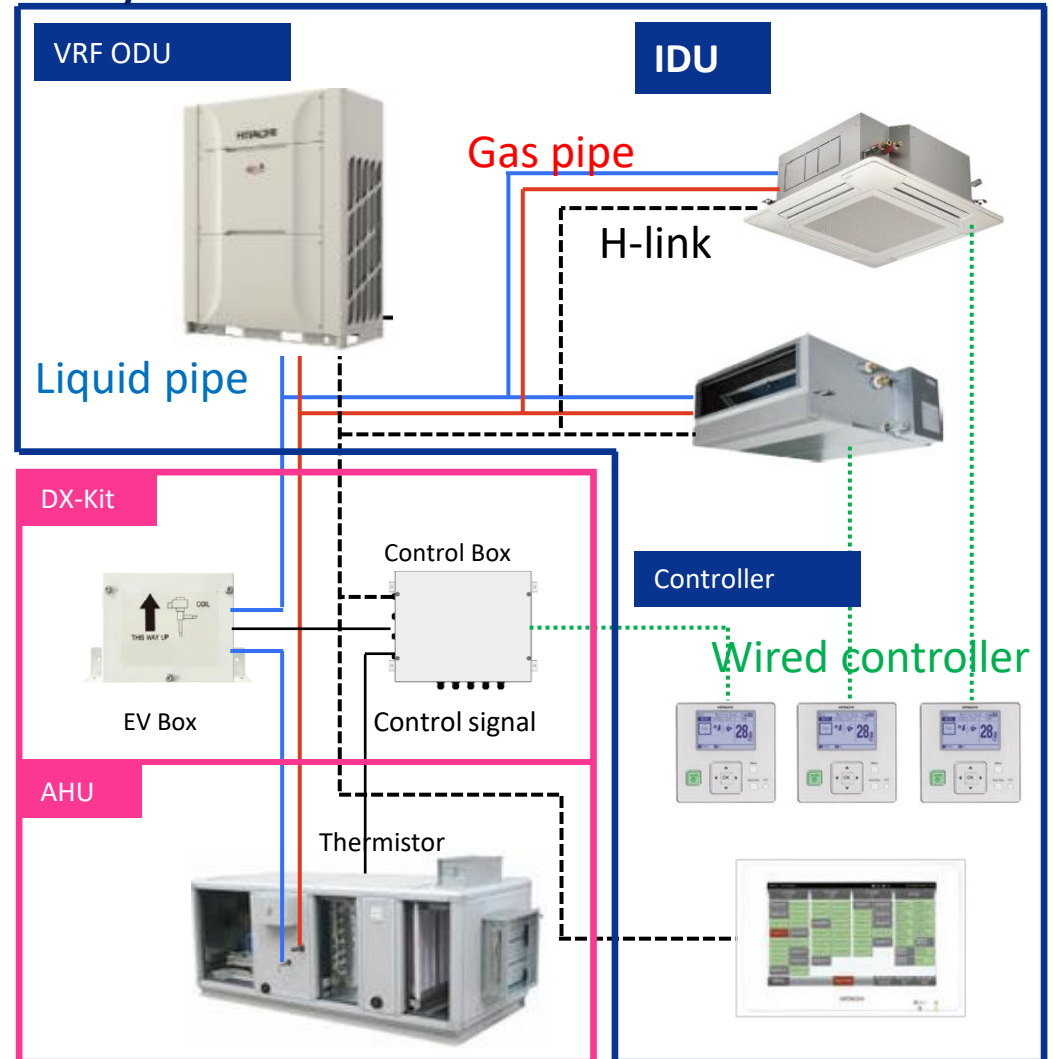

With this arrangement, we can connect bigger capacity AHU in single refrigerant circuit.

Application: Offices, OT/ICU in Hospital, Auditorium, Banquet Hall/ Restaurants

Note: For all the requirements, coil selection to fulfill the DX Kit concept note conditions.

VRF System

DX-Kit & AHU

H-link Wiring follows general rule

VRF System with AHU

Flexible Configuration

1 ODU & 1 AHU
1 ODU & 1 AHU (Separate Heat Exchanger Type)

1 ODU & Multiple AHU's

1 ODU & AHU & IDU's

DX-KIT
Left: Control Box (C Box)
Right: Expansion Valve Box (EXV Box)

VRF IDU : Key Technology - Motion Sensor Technology (Optional)

What is it?

It senses the amount of human activity, undertakes automatic saving & achieves intelligent energy saving.

How does it work?

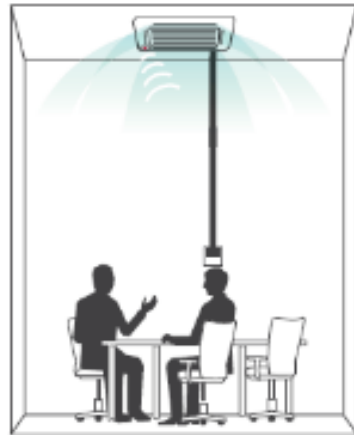

Perceives the amount of human activity & undertakes automatic saving.

For Example

Standard operation for a room with a lot of human movement.

Moderate operation for a room with little human movement.

More moderate operation if people are absent for a certain period of time.

It is also possible to stop the operation of the unit by applying a particular setting if people remain absent for more than 30 minutes.

Applicable Models

4 Way Cassette

4 Way Compact Cassette

2 Way Cassette

1 Way Cassette

Ceiling Suspended

Key Point:

Motion sensor detection for effective cooling & power saving with wide coverage area.

VRF IDU : Key Technology - Individual Louver Control Technology

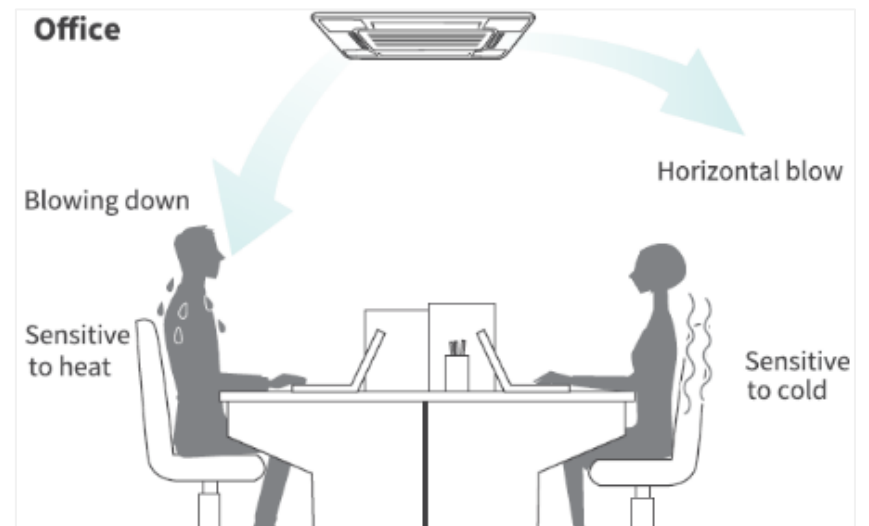

Individual Louver Control Technology : Control air flow with individual four-way louvers

More comfortable air conditioning can be achieved along each zone requirement

This feature is compatible with wired remote controller (PC-ARF/PC-ARF1 / HCWA10NEGQ)

Examples

VRF : Individual Control System

New Premium – Advanced Wired Remote Controller : PC-ARFG

- Brand new global visual design.
- Stylish curve with touch buttons.
- 4.3" large color screen.
- New home menu screen design with diff. display color for each operation mode.
- Integrated housing with IML process increases durability & cleaner look.

Advanced Wired Remote Controller : PC-ARF1

- 120mm square controller with LCD screen.
- Multiple power-saving features.
- Best option for spaces operated by the same users, e.g., offices.

Touchscreen Wired Remote Controller : HCWA10NEGQ

- 88mm square controller with Touch Screen LCD.
- Smaller body with multiple features.
- Best option for premium apartments and bungalows.

Advanced Wireless Remote Controller : PC-AWR

- Several temperature units & settings available : .5°C/1.0°C/1.0°F.
- Ideal for controlling the unit from anywhere in the room.

Wireless Remote Controller

PC-LH7QE PC-LH3C

- Budget option featuring primary control settings, 1.0°C temperature step.
- Ideal for controlling the unit from anywhere in the room.

VRF : Centralized Control System

airCloud Pro : HC-IoTGW

- Remote access via smartphone app or web.
- Unlimited number of systems, zones and users.
- Intuitive scheduling function.
- Troubleshooting with access to error history & alerts.
- Ideal for all types of applications.

Central Station Mini : PSC-A32MN

- Control capacity: Max 32 RC groups.
- Compact & optimized 120x140mm body screens fitting in even small walls.
- Easy monitoring with simplified interface.
- Best option for small size buildings.

Central Station EZ : PSC-A64GT

- Control capacity: Max 64 RC groups.
- Compact and optimized 170x250mm body screens fitting in even small walls.
- Easy monitoring with simplified interface.
- Best option for middle size buildings.

Central Station EX1 – Web Monitoring feature from PC / Laptop

PSC-A128EX1

- Remote access! Operate Central Station EX from your laptop or PC.
- Control capacity: max 2,560 indoor units (+15x Extension Adapter PSC-AD128EX1).
- With energy calculation software (PSC-AS01EXC), determine each tenant's energy usage.
- Easy monitoring with simplified interface.
- Best option for large size buildings.

BMS –

Connection through BMS
through :

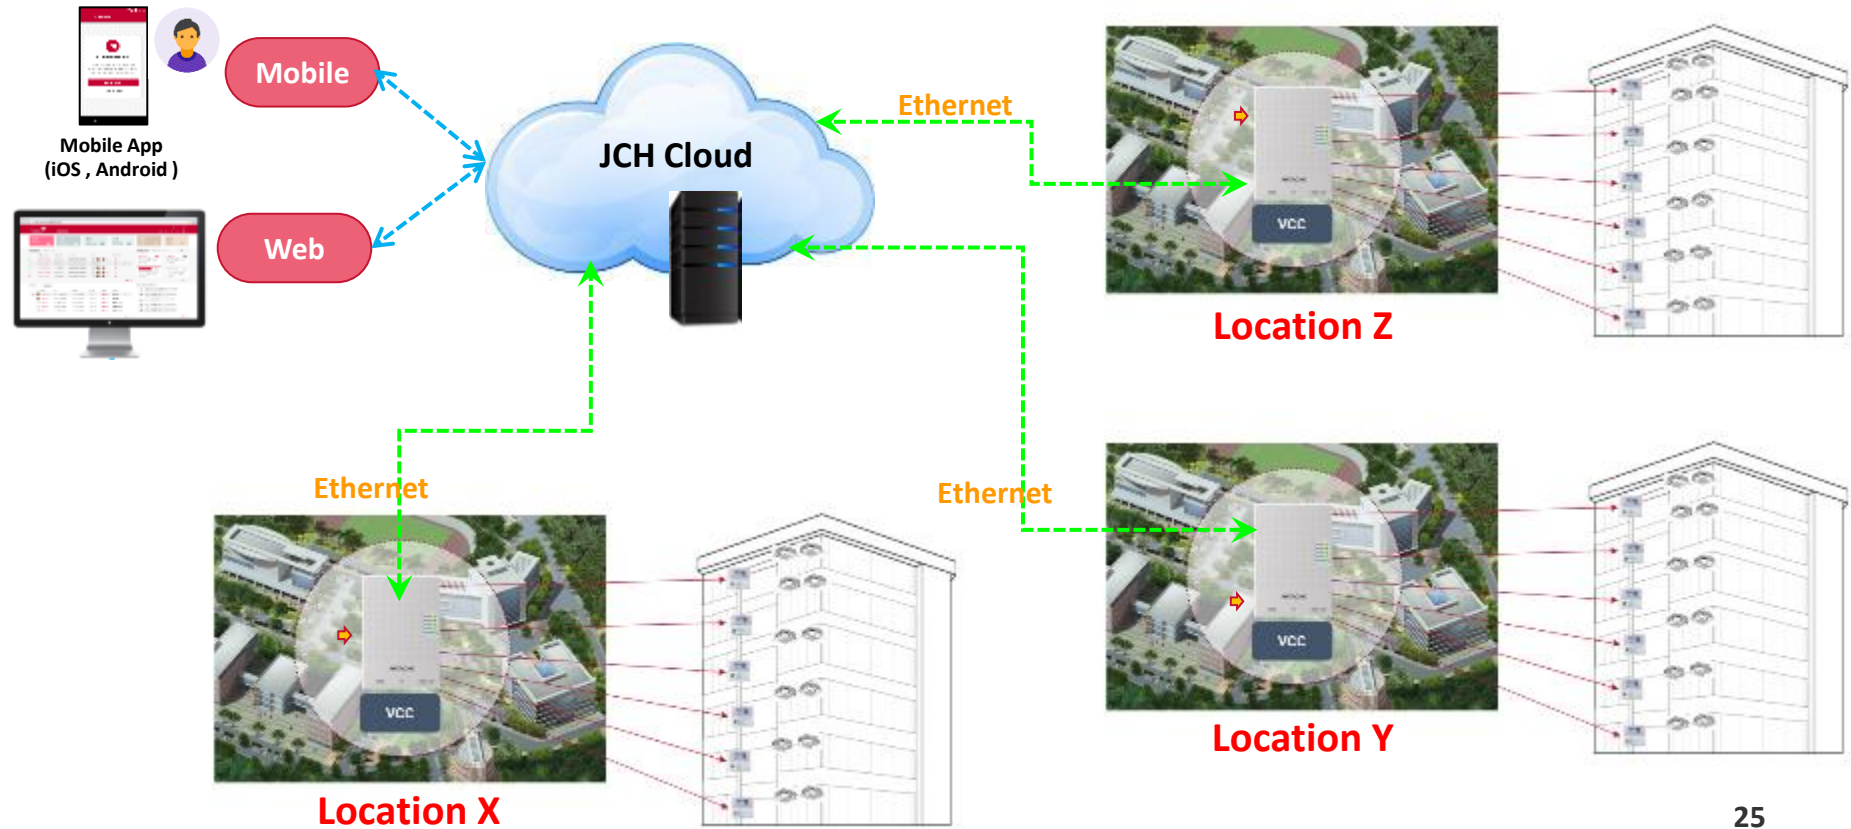

- MODBUS Adaptor
- BacNet Adaptor

VRF Controller : airCloud Pro

Centralized control through airCloud can be accessible from anywhere, anytime from **Mobile as well as Web**.

- ❖ Different locations can be monitored & controlled simultaneously from same place.
- ❖ Connectivity : Unlimited number of sites / gateway / users.

PAC : Takumi Smart Inverter Ductable AC

'Takumi' in Japanese means "Professional"
 Takumi Smart → Professionally Smart

Takumi series is named as "The Professional Range" of Ductable Air Conditioner which caters the needs of Architects & Consultants. It is One-of-a-kind solution to air conditioning industry.

Features, Functions & Advantages

-  Wi-Fi enabled-airCloud Home
-  Building Management system
-  H Link- Connectivity with Hitachi VRF
-  Communication-RS-485
-  Wireless Remote Controller
-  Self diagnosis
-  Fault Login history
-  Efficient design with Inverter Compressor

User

- Inverter Technology
- airCloud Home – Wi-Fi Connectivity
- BMS Connectivity
- HHRC Sensing (Wireless)
- Fan Speed Selection
- Timer ON/OFF
- UV Lamp Function*
- Drain Pump Function*
- PAC Fault O/P
- Soft start
- Less stress on electrical MCB/RCCB/Wiring
 - Low inrush current / voltage dips
 - Reduced compressor On/Off
- Part load operation
 - Variable capacity w.r.t. load

Service

- Safe & Low cost IDU-ODU field wiring (RS-485)
- Real Time Critical Parameter Monitoring – via Modbus
- Self Diagnostics
- Fault Logging (WRC)
- **Cycle Lock** in case of repeated Pressure or Current trips.
- Fan Speed Selection (Single Speed / Two Speed)

Safety

- High Pressure Switch
- Low Pressure Switch
- Overcurrent Protection
- Undervoltage/Overvoltage Protection
- Restart Delay
- Min. ON/OFF Time

Note: * Marked functions are available as optional
